DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 07 August 2021 at 04:02 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollutions levels will be Low for all areas today, helped by showers or longer spells of rain across the UK.

Tomorrow: Scattered heavy showers across the UK, and also breezy conditions for many areas, will maintain Low levels of air pollution for Sunday.

Outlook: The weather conditions will gradually become drier with lighter winds for many areas through the period, while air pollution levels remain Low across the UK.
